

What are the SDGs?

- **Sustainable Development Goals**
- **In September 2015** set by the United Nations
- **Form global agenda** for sustainable development until 2030
- **17 SDGs in total** address poverty, hunger, education, gender equality, climate action and sustainable cities among others
- **Realization of SDGs** requires partnerships at all levels, including governments, businesses and individual citizens
- **SDGs as an opportunity** for innovation and sustainable business growth

Realized for
Mavronero Farm Ltd

Sustainable Seeds' SDG Tool is a UN-approved plugin that allows us to seamlessly integrate the Sustainable Development Goals (SDGs) into any website. Regardless of size and complexity, it requires only a few steps to present the SDGs as an integral part of your website.

The easy customization option allows for a clear highlighting of the pursued goals for every visitor of your website. In addition, the text window offers the possibility of individualization and presentation of the commitment.

Demonstrate your commitment to sustainability and social responsibility directly on your website, helping to strengthen credibility and trust with customers, partners and investors.
